Intermediate Certification Classes Open To:

Anyone who has successfully completed the Copic Papercrafting Standard Certification Class. We realize that some of you may be learning these techniques in the basic class, so you will not be declined for what you don't know.

Class Goals and Outline

The Intermediate Certification Class is about taking your hard work to the next level so that you can have fewer failures and recognize what your project needs to make it POP! You will receive a 48 page manual with blank copies of every image colored throughout the book that you can go home and practice with. In addition, you will receive lighting guides, a mini-portfolio, a lapel pin and a badge for your blog once you have completed the class.

- Shadows, shading and color
- Composition and design in papercrafting
- Coloring tricky situations(trees, faces and skin tones, hair)
- Applying coloring and design concepts
- Improving design on your own

The Intermediate class is geared towards serious Copic users (enthusiasts or teachers), who want to take their skills to the next level. This class has been developed for people who want to know more of the artistic aspects of working with Copic. This is a technique based class, and you will not go home with a finished project. We will provide you with a portfolio, that you can put samples of what you learn and make in class.

People who take this class will be listed on our website (www.copicmarker.com/instructors) as instructors who have completed Copic Intermediate training.
