ANYONE WHO WANTS TO LEARN MORE ABOUT COPICS!!!!

Class Goals and Outline

The Copic Certification Class encompasses education of the most important aspects of Copic's product lines. It includes hands-on education of product knowledge, blending techniques, answers to common problems and how to test and select your inks and papers. You will receive a 68 page manual, techniques and class instruction, as well as a kit of products. You will have an opportunity to use many of our products hands-on as we cover their function and the differences between each one.

- Three common mistakes and how to identify, test and use your materials
- Four different blending techniques
- How to create texture and erase mistakes
- The Copic numbering system
- How to choose colors that work well together from the Copic Color Wheel
- Airbrushing with both the ABS-1 and the Air Compressor / ABS-3 setup and understanding how each works.

Certification is useful for craft enthusiasts, but also store owners, store employees, store designers and instructors in the papercrafting industry. You will make a portfolio of samples to showcase the different techniques you learn in class. This will help you build upon your skills and knowledge, to take you to the next level!
